## Editorial

As has been the pattern over past years, our hefty block of March/April pilot listings are now mostly shooting or staffed and as a consequence the total number of actionable Projects begins to decrease to our more normal monthly count. This week's report lists 45 Projects across N. America and a few (that originated here) overseas.

We strive for accuracy but sometimes, in the mad rush during pilots, we might find errors after publication. Please feel free to email us with any questions or comments as you work down the list. We promise to investigate any errors and correct them as fast as possible. We'll be sure to let you know what we find out too.
